Software Engineering Student

WFM Analyst & Data Automation Specialist

+506 6452 4289 | migue900920@gmail.com

SUMMARY

Workforce Management (WFM) Analyst with proven experience in optimizing BPO operational efficiency through **real-time data analysis, volume forecasting, and absenteeism management**, leveraging data from industry-standard WFM and telephony applications.

Proficient in automating core WFM processes (PTO, overtime, reporting) using **Microsoft Power Automate and** developing robust data models (SQL) for Business Intelligence and strategic workforce decision-making. Skilled in translating complex data into actionable operational strategies.

Skills:

- **WFM Systems & Applications:**
  - Familiarity and data extraction experience with leading WFM platforms, including **Genesys**, NICE IEX, and Verint.
  - Expertise in integrating data from CRM, Telephony (ACD), and Ticketing systems for unified analysis.
- **WFM & Planning:**
  - **Forecasting and Capacity Planning** (Short-term and long-term modeling).
  - **Real-Time Monitoring (RTM)** and Intraday Management.
  - **Absence Management** and Shrinkage analysis.
  - Adherence and Occupancy KPI optimization.
- **Data & Business Intelligence (BI):**
  - Data Visualization with **Power BI** and Advanced Excel.
  - Database Proficiency: **MSSQL, PostgreSQL, MySQL, SQLite** (ETL/Data Modeling).
- **Automation & Programming:**
  - Workflow Automation (**Microsoft Power Automate**).
  - Data Analysis Programming in **Python**.
  - Data Cleaning and Preprocessing (Salesforce, MS Forms).
- **Soft Skills:**
  - Exceptional Communication and Leadership in Multicultural Environments.
  - Problem-Solving and Process Improvement.

EXPERIENCE

WFM Specialist Nov. 2020 / 8-2025]

CSSCORP - Movate [Ultrapark1, La Aurora Heredia, Costa Rica]

- **Forecasting and Capacity Planning:** Conducted **quarterly behavior predictions** and progress forecasts, including daily **volume recasting** and meticulous analysis of overtime impacts to ensure accurate staffing levels and precise client billing.
- **Automation of WFM Processes:** Led the implementation of critical automations using **Microsoft Power Automate**, streamlining the approval processes for PTO, overtime hours, voluntary time off, and shift swaps, significantly enhancing compliance and operational efficiency.

- **Performance Management & Reporting:** Developed comprehensive reports and **WFM dashboards** (Excel) to monitor key performance indicators (KPIs) such as **productivity, auxiliary usage, and detailed absenteeism rates** (Unplanned Unjustified, System Issues, etc.).
- **Global Intraday Management:** Organized and led impactful operational meetings and prepared essential global reports (for regions like the Philippines, India, and China), delivering crucial insights on **billable overtime** and operational readiness during high-demand scenarios.
- **Data Integrity and Auditing:** Verified and distributed reports on backlog cases, vigilantly monitoring employee conduct to mitigate **case avoidance and time abuse**, ensuring operational integrity and accurate labor cost tracking.
- **Team Development:** Trained colleagues to assume critical WFM responsibilities during absences and provided guidance on Sandbox simulators, promoting **operational continuity** and skill development within the team.

Junior Software Developer (side job) May 2022 / 8-2025]

CSSCORP-Movate [Ultrapark1, La Aurora Heredia, Costa Rica]

- Learn the codebase connectivity tool project (jQuery).

- Create Web applications for Commscope/ARRIS (HTML5 / CSS3 / VanillaJS).
- Audit, Design and implement Commscope/ARRIS G34 web simulator (HTML5 / CSS3 / VanillaJS / PHP)
- Implement and Optimize Commscope/ARRIS Connectivity Tool UI/UX Design (HTML5 / CSS3 / JQuery)
- I attended design meetings with the client, every week, participating in all the updates.
- Collaborate writing basic code and added functionality.
- Collaborate in the debugging and exhaustive analysis of the source code.
- Use of tools for agile project management, such as Trello, Azure DevOps.

EDUCATION

BACHELOR'S DEGREE IN SOFTWARE ENGINEERING

Universidad Internacional de las Américas	*San José Costa Rica*	Currently completing final 8 courses before graduation

Technical Bachelor of Computer Science, Technical and Professional Education

Instituto Politécnico de Informática "Máximo Gómez Báez"	*Camagüey Cuba*	2008

*[all title or certification sent upon request]

- Certification ONE (Oracle Next Education) [Complete]
